High-Level Forecast of Proposed Telcordia GR Work Projects in 2012

These GR tables contain the latest high-level forecast of potential Telcordia GR work. The project scope, precise timeline, and detailed technical description of the potential work have not been finalized. The Estimated Project period is a target timeframe. The exact start date is contingent upon contracted participation and participants' schedules. **You may view any proposed project scope by clicking on the associated Project Description link.**

Telcordia reserves the right to withdraw from any GR work listed if Telcordia deems that there is insufficient interest or inadequate participation.

The scope of a GR project is determined by the number of expected funding participants. While the project can proceed with fewer participants, deliverables may change as a result. The participating industry members will be apprised regularly of project status and any changes in deliverables.
